

Quick Guide to Recognition

Recognize your peers for their hardwork and tell the organization why they deserve it.

Critical Pieces for a Quality Recognition Post

1. Who do you want to recognize?
2. What's the story behind the recognition?
3. Select a badge
4. Make it fun with an image or video!

Be **specific** and **descriptive** to give the proper recognition and allow the full organization to have context.

Zane Zander
was recognized for
Service

tell a story

One of our clients was getting a little frustrated as she was putting together information for her leadership team. I asked Zane for an assist and boy did he come through! Our client left the call feeling valued. She ended the call saying "this is a testament to you all and the service level you provide". Thank you, Zane!

make it fun!
